EDUCATION

Feb 2020 – Dec 2022

EDUVOS UNIVERSITY | PRETORIA

- Bachelor Degree in Information Technology

Jan 2015 – Dec 2019

CLAPHMA H.SCHOOL | PRETORIA

- National Senior Certificate

SKILLS

- **Backend Development:** Java 17, Spring Boot, Jakarta EE, REST APIs, Microservices
- **Cloud & DevOps:** AWS (EC2, S3, Glue, Athena), Azure, Docker, Git
- **Low-Code & Automation:** Power Apps, Power Automate, Power BI, Dataverse
- **Web & Data:** Angular, JavaScript, SQL, PostgreSQL, DB2, HTML, CSS, Angular
- **Testing & Tools:** Selenium, Cucumber, JUnit, Payara Server, Airflow

CERTIFICATES

- Microsoft Certified: Data Analyst Associate (Power BI)
- Full Stack Java (Spring Boot, Hibernate, REST APIs)
- Digilink Software Developer Programme

LANGUAGES

- English (Proficient)
- Afrikaans (Proficient)
- Setswana (Native)

PROFILE SUMMARY

Technically skilled developer with hands-on experience in Java backend systems (Spring Boot, Java EE), cloud solutions (AWS/Azure), and low-code automation (Power Platform). Proven ability to design, optimize, and deploy high-performance applications, from enterprise-grade APIs to business automation tools. Combines strong coding fundamentals with DevOps practices (Docker, CI/CD) and a problem-solving mindset. Passionate about clean architecture, scalability, and efficient workflows.

WORK EXPERIENCE

Deviare

June 2025 – Current

Microsoft Partner

Junior Power Platform Specialist

- Develop low-code business solutions using Power Apps (Canvas & Model-Driven) and Power Automate, reducing manual processes.
- Design interactive Power BI dashboards for real-time data insights.
- Integrate Power Platform with Azure/Dataverse for secure enterprise workflows.
- Train end-users and document solutions to drive adoption.

BMW | Pretoria, South Africa

June 2024 – April 2025

(Java Developer Intern

- Built a Java-based data comparison tool that streamlined report generation.
- Connected backend systems to multiple databases (JDBC) for secure data retrieval.
- Deployed applications on Payara Server (Docker/AWS EC2) for high availability.
- Automated cloud workflows using AWS Glue, Athena, and S3.

Digilink | Johannesburg, South Africa

April 2024 – April 2025

(Client: BMW)

Java Developer Intern

Northridge P. School | Pretoria, South Africa

April 2023 – April 2024

ICT Support Intern
